

Jiaheng Li

Full-Stack Software Engineer

odell.lijaheng@gmail.com | 027 295 9309

[Portfolio](#) | [GitHub](#) | Auckland, New Zealand

Open Work Visa - valid until 25 February 2029 - no sponsorship required

Available immediately - open to relocate

Profile

Full-stack software developer with three years of commercial experience across finance SaaS and structural-engineering software. Builds C#/.NET and Java/Spring backends, React/TypeScript interfaces, and SQL-backed systems, with end-to-end ownership from requirements and design through testing, CI/CD, and release. Experienced translating complex domain workflows into maintainable software for technical and non-technical stakeholders.

Professional Experience

Skyline Consulting Engineers Limited

Oct 2024 - Dec 2025

Part-time Full-stack Software Developer - Auckland

- Developed and maintained full-stack structural-engineering software using C#/.NET, React/TypeScript, and PostgreSQL.
- Worked with structural engineers to clarify calculation workflows, define validation rules, test results, and deliver reliable releases.

Yonyou Network Technology Co., Ltd.

Mar 2022 - Dec 2023

Junior Backend Developer (Java) - Zhengzhou, China

- Built Java/Spring services and REST integrations for a finance-focused, multi-tenant SaaS ERP platform using Oracle, PostgreSQL, MongoDB, and Kafka.
- Developed a separate migration service handling up to approximately one million records daily through incremental extraction, data transformation, MyBatis/MyBatis-Plus, and parallel processing.
- Delivered a Spring Boot authentication gateway and Kafka message-push module with thread-pool processing for workloads above 100,000 records; debugged faults across API, service, database, and integration layers.

Selected Engineering Work

StructLedger	.NET beam-calculation APIs and PostgreSQL on Railway, React/TypeScript on Cloudflare, Google sign-in, and CI/CD. Live product
p2p-lockstep-kit	TypeScript/WebRTC toolkit with state synchronisation, reconnect recovery, an AI build skill, and multiplayer Mahjong support. GitHub Gomoku Chess Xiangqi Mahjong
NX-Cast	C/libnx Nintendo Switch media receiver supporting DLNA, IPTV, and AirPlay 2 with hardware-accelerated libmpv playback and automated release builds. GitHub Technical notes

Education

Master of Information Technology

Jul 2024 - Nov 2025

University of Auckland

Bachelor of Network Engineering

Sep 2018 - Jun 2022

Henan University

Core Expertise

Backend: C#, .NET 8-10, ASP.NET Core, Java, Spring Boot, REST APIs

Frontend: React 18/19, TypeScript, Next.js, Vite, HTML, CSS

Data & Cloud: SQL, PostgreSQL, Oracle, MongoDB, AWS, Azure, Docker, Kubernetes

Delivery & AI: Git, CI/CD, GitHub Actions, xUnit, RAG, MCP, agent development

Professional Reference: Hongchang Zhang, Director, Skyline Consulting Engineers Limited | [029 128 6676](tel:0291286676)
